

Firewall Configuration for productive Terminals

If PayTec terminals are in a closed network you may need to open firewall ports to use the terminal properly. Find below the list of all used ports and IP addresses. We strongly encourage using domain names.

Target Host	FQDN	IP Address	Port No.
Download-Server (TMS-SW < 4.0.x)	ptload.paytec.ch	82.220.35.201	8320
Download-Server (TMS-SW >= 4.0.x)	ptload.paytec.ch	82.220.35.201	8322
Service Center (Config)	tms.paytec.ch	82.220.35.201	8321
TechLog Server	log.paytec.ch	82.220.35.201	8330
Remote Maintenance Server	rt.paytec.ch	82.220.35.202	22
Remote Key Management #1	tms.paytec.ch	82.220.35.201	25166
Remote Key Management #2	tms.paytec.ch	82.220.35.201	25167

Please contact your payment service provider for details concerning payment hosts and ports.
